Dear Mr. Mascus,

We can supply a xerox of Oswald in New Orleans, with a durable binding, for $27.00, including insured mail.

I think that JFK assassination study groups is a good idea but if you discuss the various theories you are dealing with mythology. None is proven, almost without exception they can be debunked, almost without exception the authors of those books are subject-matter ignoramuses and want to stay that way, and should any one of them have been right, are not all the rest wrong? Except for those with the same theory?

Best wishes,

Harold Weisberg

Thanks for your good wishes about my health. Wish it were possible for it to improve!
